3. Who does what

When	What	Who
This month	Fix the rules and parameters, with no further tuning	Portfolio manager
Next quarter	Paper trade and compare the fills with the assumed costs	Trader
Before any capital	Agree size, stop rule and review dates	Risk manager
Each year	Rerun on new data and compare with this validation	Quant team

4. How the files work together

- The **tear sheet** is the only file for investors; it carries the disclosures it needs.
- The **presentation** has speaker notes on every slide, and its charts can be edited in PowerPoint.
- The **workbook** recalculates: choose a cost per trade in the yellow cell of the Control panel.
- Editing the Excel and PowerPoint files needs Office, or a free tool such as Google Sheets and Slides. Reading them does not: both are inside `00_START_HERE`.

5. What we need for the next run

New price data, any change in the rules or the trading costs, and the real fills if the strategy goes live.

6. Data and access

All client data will be deleted within 10 business days of the end of the engagement (or retained for the next run as agreed).
